

A Parent's Guide to Response to Intervention (RTI)

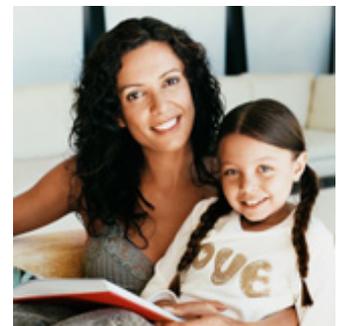

By Candace Cortiella, Director - The Advocacy Institute

1 Comment

The parents of millions of children who struggle to learn are searching 24/7 to help their children move forward in school. This guide to Response to Intervention is an easy-to-understand and critical tool for these parents.

- James H. Wendorf, Executive Director, NCLD

Overview

Millions of school-age children experience difficulties with learning. Their struggles in school may be due to factors such as cultural or language differences, poor attendance or a lack of appropriate instruction. In some cases, a disability such as a learning disability can make learning difficult for a child.

The National Center for Learning Disabilities' [RTI Action Network](#) has developed this guide for parents and schools involved in implementing response to intervention (RTI) in the elementary grades. As schools work to implement this new approach, some confusion may arise, so parents should feel free to ask questions and raise concerns along the way. For specific information on parents' rights under RTI, download our [Parent Rights in the Era of RTI PDF](#).

What's Inside

The Parent's Guide to RTI includes

Parent Perspectives – Real-world examples from parents who have experience with RTI.

Glossary – Learn the important terms you'll need to know during the process.

Tiered Intervention 101 – Concise explanations of the tiered model and why it works.

Sample Intervention Plans – Print out your own sample intervention plan.

Checklists and worksheets – Print out documents that will help guide you through the process.

Very well written, clear, and mostly accurate! Of course, there is one error in this pamphlet... the writer seems to think that the special ed teacher has the time to give 1 hour of 1:1 instruction and 1/2 hour of 2:1 instruction.... and do it EVERY DAY! LOL!!!! What state do they live in? What are the special ed teacher's FTE's? Wow, that would be a dream!
